ABOUT FF MARK EXTRA LIGHT ITALIC SC

New meets old meets technic, FF Mark is not an average geometric sans.

Designed with versatility in mind, it breaks tradition with its family of 10 weights ranging from Hairline to Black, with the extreme weights “engineered” to shine bright in large sizes and middle weights optimized for body copy.

Born from the idea to create an up-to-date typeface rooted in 1920s German geometry, FF Mark is a special project, as it is a self-initiated collaboration between Hannes von Döhren, FontFont’s very own Christoph Koeberlin, and the entire FontFont Type Department. With the creative support/input of no less than Erik Spiekermann, they designed a distinctive typeface: FF Mark is strong, simple and bold in form and at a glance may appear to be typical of its predecessors from the time. On closer inspection, letter shapes are wider, letter proportions are better balanced and the x-height is uncharacteristically “normal” or higher, which increases its versatility tremendously.

At all stages of the design process, FF Mark benefitted from the Type Department’s technical expertise. With carefully crafted diacritics, extensive kerning, consistent stroke endings and a sizeable contemporary character set (including different figure sets, ordinals, small caps, extended Latin language support, arrows, symbols, currency symbols, alternates), FF Mark has been developed with the intention to be expressed across a wide range of applications. Noteworthy letter “mark” mentions also go out to K, R and Q for their slightly quirkily constructed forms and German rooted idiosyncrasies.

A new classicist approach with a nod to Teutonic heritage, it maintains the integrity of tradition by drawing on the charm, elegance and even at times clumsy historic nuances of the old geometry but in a contemporary context. Created with utmost consideration and precision (aka German Engineering), it is indeed “ze Germanetric sans”.

**ABOUT
HANNES VON DÖHREN**

Hannes von Döhren was born in Berlin, Germany in 1979. After completing his studies in graphic design, he worked in an advertising agency in Hamburg. Since 2008 he runs his own type foundry HVD Fonts. Within the last years he has released several type families like Brevia, Livory, ITC Chino, FF Basic Gothic, Reklame Script and Brandon Grotesque which was the most successful release at MyFonts in 2010. In 2011 he has received the Certificate of Excellence in Type Design from the Type Directors Club New York.

**ABOUT
CHRISTOPH
KOEBERLIN**

Christoph Koeberlin works as a type designer and font developer at FontShop International and runs the independent typography website typefacts.com. He likes vinyl records, gingham-checked shirts and a bit of chocolate after every meal.

**ABOUT
FONTFONT TYPE
DEPARTMENT**

FontFont represents some of the most talented and interesting type designers in the world. Behind every FontFont and type designer is a small group of secretly working technicians, designers, and typographic experts, the Type Department.

Combining design with the technical, the team—consisting of Andreas Frohloff, Inka Strotmann, Christoph Koeberlin, and Jens Kutílek—work to craft and develop outstanding typeface ideas into high quality fonts. They work directly and openly with each and every FontFont designer, providing aesthetic feedback and technical support with the aim to get the best out of every design. These unsung heroes work passionately and effortlessly for each and every FontFont but also, of course, for the love of type.
